

Courses

Coralie will be running three different courses.

The groups will be small to allow Coralie to spend time with each participant. The courses will run from **10am - 4pm**. Coralie will speak about mosaics and give a short talk about her work at the start of the session. The courses are aimed at learning the techniques rather than completing the mosaic, this can always be finished at home.

The **Beginners course** will be an introduction to mosaic covering the cutting and laying techniques to get you started. We will work with the direct method with various materials to create an artwork for your home. We will be working on wood or mesh using ceramic and glass tesserae. We will be working on a mosaic 60cm x 30cm approximately or equivalent.

The **Advanced course** will focus on the reverse method with advanced cutting, laying and applying techniques. There will be a chance to try different materials to create an artwork for your home or garden. We will be working with ceramic and glass tesserae and looking at working with marble. We will be working on a mosaic 60cm x 30cm or equivalent.

The **Pebble Mosaic Course** will be an introduction to laying pebbles in the direct and reverse methods. We will be working onto and casting the mosaics into slabs for your garden. We will be looking at the patterns and possibilities of this heavily textured technique. We will aim to complete two mosaics, exact sizes will be determined on the day.

What you need to bring

There will be refreshments provided during the day but please bring your own packed lunch or you are free to go out at lunchtime if you wish.

Please bring an apron and clothes and a pair of sunglasses that are not too precious as they may get dusty or dirty.

Please bring at least two design ideas to discuss with Coralie.
